Thursday 5th November 2020

Dear Parents / Carers

'Securing Exam Success' virtual website event: Thursday 12th November from 4pm

In these unusual times, we would like to provide you and your child with as much clear advice and guidance about how they can best prepare for the planned GCSE exams next summer based on the information that we currently have. Towards this end, on **Thursday 12th November** we will be holding our '*Securing Success Exam Success*' virtual event on the school website from 4pm onwards. This will include four linked video presentations which will cover the following topics which are all vitally important for you and your child to watch:

1. Timeline of key events leading up to the planned final exams in June 2021
2. Key revision skills to support exam success
3. Well being - how to avoid unnecessary stress and stay healthy in body and mind
4. Post 16 progression pathways - what are the options available to you and how to go about applying?

In addition we will include a parental survey link in order to get feedback on the event and to find out what other questions or queries you may have that we can look to address.

Please also make a note of **Thursday 10th December**, as this will be our **virtual Year 11 Parents' Evening** when you will have the opportunity to schedule on-line meetings with your child's subject teachers to discuss their progress so far in advance of their planned Pre-Public Examinations in January. Further advice and guidance on how this event will run will be shared with you in due course.

Warm regards

Mr M Haresnape
Senior Deputy Headteacher

Miss G De Sousa
Year Leader and KS4 Coordinator
